

66 SERIES 1.0 GHz REVERSE WINDOW TAP [DT66G-SR-CB-PIM-x/23]

Cable Products, Mainline Passives

TaiTin

Description

TaiTin's 66 series taps have been designed with the future of the CATV industry in mind. The reverse window option allows for the more efficient use of high value taps by having a greater loss at higher frequencies and a lower loss in the lower frequencies. This feature is available in 3 tap values: 26, 29, and 32 dB. All units come complete with a factory installed power passing bar for uninterrupted service when the faceplate is removed. Interchangeable faceplates allow for future network growth while minimizing costly equipment upgrades for cable providers. All taps are backed by a one year limited warranty.*
